SEMINARS, & WORKSHOPS

Year – 2022

- Seminar – Upgrade and Migrate to Oracle DB 19c along with new features & Top 5 reasons.
- Workshop – LVC Training for Oracle DB 19c

Year – 2021
Seminar – As San Beda University transitioned to online mode of learning due to pandemic, they shifted the internship program to two seminars related to our field:

- Big Data, Cybersecurity, and Artificial Intelligence
- Is Cybersecurity Essential?

ACHIEVEMENTS

- MTA Database Fundamentals Certificate (2020)
- Dean's Lister Second Semester A.Y 2019-2020
- Dean's Lister First Semester A.Y. 2018-2019

KEY TECHNICAL SKILLS

- Manual QA Testing
- Mobile Application Testing
- Test Case Design & Execution
- Functional & Regression Testing
- Defect Identification & Reporting
- API Testing
- Test Automation – Playwright
- TypeScript / JavaScript
- C#
- Microsoft SQL Server (MSSQL)
- SQL Queries & Database Validation
- HTML / CSS
- HRIS Testing

WORK

Quality Assurance Analyst – *Manual & Automation Testing* | Intellismart Technology, Inc.
May 23, 2023 – Nov 6, 2026

- Performed manual testing of HRIS modules across web and mobile platforms, including payroll, timekeeping, and employee records; executed test cases, validated data accuracy and calculations, and reported defects to ensure system functionality, compliance, and reliability.
- Performed Playwright-based automation testing, primarily focused on unit-level testing of timekeeping applications; reviews and modifies existing test code when errors or issues are encountered during test execution to help ensure accurate test results and reliable application functionality.
- Performed manual testing for a newly developed Inventory Management System; Assisted with test script preparation and execution to validate system functionality, identify defects, and verify application requirements.

Virtual Assistant | Level9Virtual
September 19, 2022 – February 17, 2023

- Completed GHL graded training and provided virtual assistance support, applying system knowledge to daily operational tasks.
